18000 West Nine Mile Road
Southfield, MI 48075

-or-

your computer with internet access. Live Webinar Demo. You can participate onsite or join in the webinar remotely. Details for the webinar will be published on the user group web site prior to the meeting.

PHP and web-based security

Security is not just important when you are doing financial transactions - an insecure Web site can be used by others for malicious purposes to launch attacks against other Web sites. There are a few must-knows for anyone who ventures out into the world of PHP Web development. In this webinar, Zend's Kevin Schroeder will focus on the absolute necessities when doing secure Web development.

About the Speaker:

Kevin Schroeder, Technology Evangelist for Zend Technologies, is well versed in a wide variety of technologies pertinent to both small and large scale application deployments. He has developed production software using a wide variety of languages including PHP, Java (standalone and web-based applications), Javascript, HTML, SQL, Perl, Visual Basic, ASP and occasionally C. His software development experience is accompanied with extensive experience as system administrator on platforms including Linux, Solaris and Windows on scales of a single server up to several hundred servers on installations that range from a few to millions of users. He has spoken at several conferences and is also the co-author of "The IBM i Programmer's Guide to PHP" and author of "You want to do WHAT with PHP?". In his spare time he races Ferraris, with a dismal win record in his Honda. He can be found online at www.eschrade.com, speaking in the first person.

From The President

Dear Member:

MITEC 2011 is almost here. This is the 6th year for this annual one day conference event. The event will be held on Tuesday June 7th at the Schoolcraft College Vistatech Center located in Livonia Michigan. The one day event provides a power packed day of education. See the conference web site for details. There is still time to register. The event features an opening session presented by Guy Paradise the world wide product manager for IBM i presenting "IBM i Directions, Roadmap, and Strategy". The presentation includes the latest features and functions delivered with IBM i 7.1, as well as enhancements for PowerVM, PowerHA and DB2 for IBM i. Guy will also share investments strategies and directions for IBM i and Power Systems. Choose from over 50 sessions. User group member, early bird and group rates apply. Continental breakfast, lunch and a snack will be provided with registration. Food is provided by the Schoolcraft College Culinary Institute. The event will also feature a vendor showcase and attendee raffle.

The event features presentations from leading industry experts including Aaron Bartell, Glen Corneau, Susan Gatner, Charles Guarino, Doug Herman, Jackie Jansen, Dave Levites, Rick Milton, James Nash, Stephen Nasypany, Jon Paris, Mike Pavlak, Debbie Saugen, Bob Schuster, Fant Steele, Paul Tuohy, Linda Cole and Leo Whitaker. Whether you are a manager, operations, system administration, programmer, analyst or technical support staff you will find the power packed day well worth your time. Don't miss this great opportunity to keep current. The event is price is the same as low price as previous years. The venue is located centrally. A great value for any IT budget. Choose from many current topics including RPG, PHP, XML, RPG Droid, RPG Open Access, RPGUI, Systems Director, RDp, Back up and Recovery, IPv6, Documentation, Web Development, Web Services, VIOS, Web Query, SQL and much more. The features plenty of IBM i and 2 full tracks of AIX to choose from.

If you haven't already renewed SEMIUG membership please do so. You will find details on how to register under the group web site membership tab. Registration fee is still only \$75. As a member of SEMIUG you are automatically registered as a Common member. Membership also entitles an organization to include as many staff members at SEMIUG activities as you would like. Group membership fees allow us to continue to bring great

education to the IBM i community in our area. As a user group member you are also provided a discount for the one day conference event.

We look forward to seeing you at the MITEC 2011!

Regards,
Laura
