## SQL Session

---

- Date:** Tuesday, April 16, 2013
- Time:** 5:30 (Deli snack) - 6:00 (Meeting)
- Location:** IBM-Southfield  
18000 West Nine Mile Road  
Southfield, MI 48075
- Guest expert:** Paul Tuohy
- Notes:** Join the GoToMeeting session, Tuesday, April 16 19, 2013 at 6:00 PM Eastern Daylight Time. Details for joining will be posted on the SEMIUG website

The meeting will be an informal session featuring SQL. Group members will share SQL code examples with fellow user group members during the meeting. The session will be used to review and discuss the SQL code examples and have an informal open discussion about use of SQL on IBM i. Paul Tuohy will be on hand to critique and share expertise. Submitted code examples will be placed on the group's iDevcloud box for members to access and review during and after the meeting. The code examples will be placed in the SEMIUG SQL library.

### About the Guest Expert:

Paul has worked in application development on IBM midrange systems for more than 20 years. He was the IT manager of Kodak Ireland and Technical Director of Precision Software and is currently the CEO of ComCon, an IBM I consulting company.

Since the late 80s, he has also worked with IBM developing and teaching courses in programming and application development. Paul is the author of "Re-Engineering RPG Legacy Applications" and is one of the quoted industry experts in the IBM Redbook "Who Knew You Could Do That With RPG IV".

He is an award winning speaker at a number of Common US conferences and works as a subject matter expert (SME) with Common US.

Paul is a regular contributor to the Search400 web site and writes for IBM i Experts Journal.

### LUG iDevcloud Box Access

As a member of SEMIUG you have access to the LUG iDevcloud box. The box is available for user group members to use for hands on learning. The box is loaded with OS V7R1 and is loaded with all of the compilers and tools needed for you to be able to explore and learn new skills. If you'd like to develop skills with RPG, RPG Free, RPG OA, SQL, PHP, Java and more, this is a great place to use as a sandbox for learning.

If you would like to access the box, contact Laura at [ubelhor@sbcglobal.net](mailto:ubelhor@sbcglobal.net) or Amanda at [awalsh@consultechservicesinc.com](mailto:awalsh@consultechservicesinc.com).

We ask that members accessing the box are courteous of others and use appropriate computing ethics during learning activities.

---

## From the President:

---

We have an exciting meeting planned for April. The meeting will feature SQL on IBM i. During the meeting we will review SQL code provided by group members and have an open discussion with expert Paul Tuohy on hand.

Please submit examples for the meeting on the iDevcloud box and place code examples in the SEMIUGSQL library.

MITEC will be here soon. Registration is open. Through April 20<sup>th</sup> an extra \$75 discount will be extended. If you haven't already registered, visit [www.gomitec.com](http://www.gomitec.com) and take advantage of the extra discount. The event features a world class list of presenters and over 50 sessions to choose from. User group and group rates are extended. MITEC is a great opportunity for i colleagues to come learn and interact with other i colleagues. A MITEC registration will be awarded onsite at the April and May user group meetings. The event is sure to be a power packed day of "I" education.

SEMIUG strives to bring current education to our local community. We've been fortunate to provide members the opportunity for hands on activities through use of the iDevcloud box. The hands on activities have been a great success made possible by the grant provided through Maxava. More LUGs have jumped on board including WMSUG and OCEAN and we hope to see more partake in the near future providing additional opportunities for group members to learn in a sandbox setting. It is vital for "I" developers and colleagues to extend their skill set and as LUG members there are many possibilities to do so.

Thank you to the volunteers that step forward and help make SEMIUG activities possible. Michael Balbaugh, Charles Nalbandian, Paul Thieme, Joy Chen, Gelita Maxwell, Amanda Walsh, Ken Elsey, Gerry Abela – Thank you!

We look forward to a promising year and continued opportunities for the local community for fellow "I" colleagues to learn and expand!

Regards,  
Laura
