Dial +1 (646) 749-3122

Access Code: 284-607-397

Audio PIN: Shown after joining the meeting

Meeting ID: 284-607-397

Navigator for i has an extensive set of performance tasks and this session reviews the basics of these performance tasks and how to use them. This presentation will review the Performance Data Investigator, aka "Investigate Data", which allows you to graphically view and analyze IBM i performance data, including some helpful tips on how you can "Investigate Data" to better understand your system's performance and how you can use the Performance Data Investigator for day-to-day management of your IBM i partition. This session will also review the newest performance tasks, including database performance graphs, health indicators, performance reports, system monitors, and how to use batch model for sizing exercises.

About the Presenter

Dawn May is a Senior Technical Staff Member for IBM in Rochester, Minnesota. Dawn is the IBM liaison to the IBM i Large User Group (LUG), the COMMON Americas Advisory Council (CAAC), and the COMMON Europe Advisory Council (CEAC). In this position she works with these client groups to organize and lead meetings and manage the requirements process.

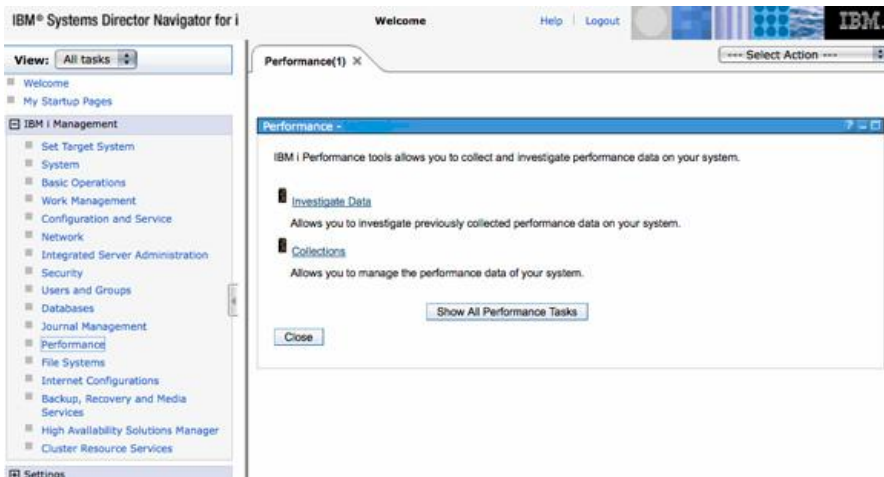

Dawn also works as a consultant within the Lab Services organization. Dawn has extensive experience on the IBM i development team. She is a frequent speaker and is also the author of the "i Can" blog, which you can find at http://ibmsystemsmag.blogs.com/i_can/. You may contact Dawn by email at dmmay@us.ibm.com or connect with her on twitter at @DawnMayiCan.

From the President:

Dear Members:

We're excited to have Dawn May from IBM presenting performance monitoring using Navigator. System performance has a significant impact on the user experience. Being able to make sure your system is running at optimum performance can and will make a difference. Participate in the March user group meeting and you will be sure to walk away with insight and tips that can help improve system performance.

Plans are under way for "RPG Free" topic in April. Stayed tuned we will post updates soon.

MITEC 2015 plans are well under way. We have an all star line up of presenters and topics with plenty to choose from whether you're a developer, system administrator, manager or whatever your IT role there will be plenty offered during this power packed day of education. The big event will be held at Schoolcraft college Vistatech center located in Livonia Michigan. The day will kick off with an opening session presented by Steve Will – IBM i Chief Architect. The event will also include vendor showcase, vendor raffle, breakfast/lunch/snacks provided by the Schoolcraft College culinary institute, students participating, and much more.

We are in process of rounding up students studying IBM i curriculum for MITEC and are targeting to have at least 20 students participate at the event. The event will feature an informal "meet and greet" session with students to allow organizations and attendees an opportunity to converse with students. If you are considering adding student resource to your staff MITEC is a

great opportunity to interact and connect with students and schools in our area offering IBM i curriculum.

MITEC site updates are in progress. Stay tuned for updates at www.gomitec.com. Plans are to have site updates posted the first week of March and conference registration open by the end of March.

The conference event will be held Tuesday June 2nd, 2015. The event will also include pre-conference labs and workshops on Monday June 1st, 2015 including: Larry Bolhuis – system administration, Charles Guarino – Rdi, Birgitta Hauser – SQL and Jackie Jansen – Web Query. The pre-conference workshops will include an entire day dedicated to one topic.

SEMIUG members will be provided a discounted rate for MITEC, group rates, and early bird registration rates will also be provided.

If you haven't already renewed your group membership now is the time to do so. You'll find membership renewal form on the group site membership page. SEMIUG members are automatically a COMMON member, have extended discounted rates for MITEC conference event, able to participate in group meetings and activities, provided access to the group iDevcloud box and much more. Dues are very reasonable at \$50 per individual or \$100 per member organization.

We look forward to seeing you participating in our upcoming March meeting. Join in on site or remotely in webinar format.

Think Spring!

Regards,

Laura
