## "BOB" (Better Object Builder)

---

<b>Date:</b>	Tuesday January 17th, 2023
<b>Time:</b>	6:00 PM EDT (Meeting) <b>GoToMeeting ONLY</b>
<b>Speaker:</b>	Edmund Reinhardt
<b>Presentation:</b>	<u><a href="#">"BOB" (Better Object Building)</a></u>

### Overview:

Edmund will address these questions,

- How to be better at VS Code
- Open source - What should we know?
- What's the difference between PASE, QSH, qp2term, etc.
- Git, Bash, and other tools like Perl, curl, sed, grep, etc.
- Pros & Cons of using ACS vs yum to manage open source
- Top 10 list IBM i developers should be learning

### About the Presenter:

Edmund Reinhardt, Architect for IBM i Application Development (IBM Canada Ltd.) is a highly-skilled professional who can tackle technical challenges with great complexity. He has the vision to see what can be accomplished by technology as well as what the business needs to succeed. He is very passionate about people, not only delighting customers by responding to and anticipating their needs, but also by mentoring and developing members on his team.

## From the President:

---

Dear Members:

Can you believe the holidays are already here. Where is 2022 going? We have a lot to be thankful for this year. IBM i continues to provide new tools, improvements and add something for everyone. It's exciting to be back out and about face to face again. We're hoping to get a date for MITEC scheduled. Stay tuned. We'll post information as soon as we have updates.

## STUDENT MEET AND GREET

In January the user group will sponsor a virtual student meet and greet. There are a bunch of students eager and looking for opportunities. Based on inquiries from members we know there are also many organizations looking to add younger resource to the team. We'll send an advance email planned for later in January well prior to the event. We are modeling the virtual event after our MITEC student meet and greet. It will be an informal activity that will allow community an opportunity to connect with students and educators and an opportunity also to look for interns and future resource on IBM i. We already have a

good sized of students signed up and 2 colleges have so far confirmed participation. Keep this on your radar. We'll post information as soon as we have firmed details.

We kicked off the 2022/2023 SEMIUG year with some great meetings and we're heading into the New Year with an exciting can't miss meeting. Edmund Reinhardt will be sharing information for developers on new technology and tools. If you're a developer you'll want to attend to gain invaluable insight on what is current and if you're a manager or IT team member you'll want to participate to learn and be informed and aware.

It's that time of year again. If you haven't done so already please pay SEMIUG dues. Dues help us be able to continue to bring current education and opportunities to our local IBM i community. Dues are the same low price \$100 per organization and \$50 for an individual. You can find the form to pay dues at the bottom of the membership tab.

We hope your holiday season is very merry and bright. We'll look forward to enjoy the holidays with our family and friends and look forward to seeing everyone virtually at our exciting January meeting.

Merry Christmas and Happy New Year

Regards,

Laura
